

NIC Release Notes

NICdistributor

NICagent

This release includes bug fixes and updates for the Distributor and Agent Apps, including:

Messaging

Direct Messaging and Chat Channels have been updated to provide a better user experience.

Updates include:

- ◆ **New Chat:** when clicked it shows 2 options: Direct Chat or Chat Channel
- ◆ **Chat Search:** a user can now only see active users that they have access to (this excludes the Super User)
- ◆ **Add Name** option is now enabled for both members of a chat if they wish to add an additional person to their active chat (creating a group chat).
- ◆ Broadcast channel owner is now the only one able to see the list of members in the broadcast
- ◆ Group chats are displayed under the Channels sections
- ◆ Location info is now available in the window when creating a new channel or when adding more people to the existing channel.

Insights

Insights page has been updated to reflect new categories and label changes.

Updates include:

- ◆ Added a new category called **Policy Status**
- ◆ Renamed Policy Events section to **Policy Status** and expanded the page to include policy statuses
- ◆ Renamed Death Benefit Amount to **Net Death Benefit Amount**
- ◆ Clicking on Insights on the Agents Profile page now keeps the contact card shown, so a user can see whose insights they are looking at

Other

In addition to the above mentioned updates/fixes, we have made various other bug fixes and performance enhancements that include

- ◆ **Filter updates:** when a filter is applied the the rest of the filters get updated correctly
- ◆ Filters are now displaying correctly based on data and on the profile the users are viewing
- ◆ Users are now able to customize the tables (policy, policy notifications, client, team, lists, documents) - when a user log out and logs back in the settings are saved
- ◆ **Show 10** filter has been removed and in its stead **Show 100** has been added.
- ◆ **Show 20** is now the default filter
- ◆ **Select All** now allows to download CSV with current number of records, or add records to a list by **Select All**
- ◆ CSV columns are now ordered alphabetically
- ◆ **Team** table has been created now showing team e-mail, status, and action columns
- ◆ **Invite Users** table has also been created to show Invitation Status column
- ◆ Applied **Team** carousel pagination
- ◆ **All Policies** table has been updated: sorting of policies now works correctly
