What's new in Version 1.9.3

NIC Carrier, Distributor & Agent App:

- ◆ Chat Channels/Broadcasts: List tab

The LIST tab has been enabled in chat. This feature allows users to send broadcasts and group chats to a list of network members that they have already created.

NIC Distributor & Agent App:

- ◆ Term Conversion Filter on Insights page

This feature will enable users to identify term conversion opportunities and create lists based on those opportunities.

- ◆ Other bug fixes
