

# NIC Release Notes

NIC Release Version 1.8 is a major release with substantial new functionality.

**NIC**distributor

**NIC**agent

## What's new in Version 1.8

### ◆ **NIC Distributor App:**

#### ◆ **Hierarchy Admin Tool:**

Hierarchy Admin Tool enables Distributor Super Users to augment and modify your organizational structure. As a Distributor Super User, you are able to reassign business units (including Agents) within the hierarchy, create new business units, and delete existing business units.

#### ◆ **Engage Program Goes LIVE!**

The Engage Program is a premium feature set that enables Distributors to communicate and share documents with their Agents through NIC. The Engage Program requires additional subscription fees and can be purchased through the NIC Distributor App. For a complete list of Engage Program features visit:

[meetnic.com/distributor-programs](https://meetnic.com/distributor-programs)

#### ◆ **Home Page Graphs Enhancements**

The Premium by Carrier Graph has been enhanced to show more representational information.

#### ◆ **Left Navigation Menu Changes**

The Contacts menu on Left Navigation Menu has been renamed to Explore. This is a label change only and it does not impact the functionality.

### ◆ **Bug Fixes**

- ◆ Minor bug fixes in the NIC Distributor and NIC Agent Apps.
