

NIC Release Notes

RELEASE DATE: December 23, 2020

This release contains new functionality and bug fixes to the NIC Carrier, Distributor and Advisor apps.

New functionality affects the Distributor and Agent application and includes:

- Context switch
 - NIC users with multiple data access contexts, can now choose which data access they would like to see from the dropdown located on the left navigation panel.
 - For non-agent users 'Explore' and 'Documents' menu items have been removed from "My Profile".
- Other bug fixes
